

# Cardboard Guitars

## What you will need

- A cardboard tube, the longer the better!
- Glue or Tape
- Scissors
- Rubber bands

## Instructions

1. Who needs an air guitar when you've got a cardboard guitar? Prepare yourself for an awesome jammin' session!
2. Take the scissors and carefully make a hole on one end of the guitar. On the same side, make another hole at the other end of the guitar. You may need an adult to help you with this.
3. Cut the rubber band(s) in half. Tie the ends through the holes.
4. Decorate your guitar! Use markers, sparkles or anything else you can think of! While you're at it, consider adding a strap by taping a piece of narrow cloth to each end.
5. You can use a plastic tag from a baked good wrapper, a paperclip or a button as a pick!

Don't forget to post a picture of your guitar on the 4-H Saskatchewan Exploring 4-H At Home Page and use [#exploring4hathome](https://twitter.com/exploring4hathome)
